1. Applicant's request for acknowledgment of the May 20, 2004 IDS cannot be granted since this IDS has not been received. Applicant can submit this IDS with the next response, and it will be considered.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 17-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roth (5,433,142, cols. 2, 4 and 6) in view of Hines. Applicant is referred to paragraph no. 3, Paper No.041905.

4. Applicant's arguments filed August 22, 2005 have been fully considered but they are not persuasive. Applicant's contention that Hines does not suggest contacting meat with aqueous ammonia to improve the color thereof is without merit. In this regard, applicant is referred to Ex. 2 and claim 1 of Hines. Regardless of the treatment pressure used in Roth, the treatment time in Roth is consistent with the treatment time used in Hines, viz. at least 2 minutes. Such a treatment time is not fairly lengthy, as applicant believes, and will limit the ammonia exposure to the meat, as suggested by Hines. Since ammonia is clearly disclosed as being a typical meat color improving gas according to Hines, the skilled artisan would have definitely been motivated to use ammonia as a working gas in Roth.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
